### **REPORT OF THE LIBRARY BUILDING COMMITTEE**

Owing to the continued high prices, the Library Building Committee feels that the Town should still postpone building until the conditions of the labor and material markets are more favorable. We ask that this Committee be continued.

Respectfully submitted,

ARTHUR W. WASHBURN, Chairman

On motion by Christian F. Henrich it was unanimously voted to accept this report and continue the Committee in office.

### **REPORT OF COMMITTEE APPOINTED FOR PURPOSE OF LOOKING INTO BUILDING CODE AND ZONING LAWS**

Your Committee has investigated building code and zoning laws required by this Town, and they should not be burdensome to administer, nor equally should they be burdensome directly to those erecting buildings. The code suggested to this Committee by the State seems to be complicated, as were those of other towns which we looked into. Investigation showed, however, that it may be possible to add to the town by-laws sufficient regulations to protect the town and the Towns' people from indiscriminate building, and it is with this purpose in mind that we ask that the continuance of this committee be granted for another year, with a report to be made at the next Annual Town Meeting.

EDAWRD A. HENRY,

Clerk of the Committee

On motion by Herbert Thompson, it was unanimously voted to accept the report as read, and continue the Committee in office.

## REPORT OF THE SCHOOL PLANNING COMMITTEE

## FOR THE YEAR 1948

The Plainville School Planning Committee has met regularly during the past year and since November has been meeting weekly. The Board of Selectmen, Members of the School Committee, and Superintendent Laurence G. Nourse and Representative Clarence F. Telford have met with the committee at various times and discussed many phases of the problem.

The Committee has also met with architects, engineers, consultants and the Director of Accounts in the State House.

Because of the scope of the project and the fact that the necessary information has not all been collected, the committee has deemed it advisable to call a special Town Meeting to be held in about six weeks time.

An extensive report is being prepared to be presented at this special Town Meeting.

Respectfully submitted,

ALPIN CHISHOLM, Chairman

Plainville School Planning Committee

On motion by John M. Bowmar it was unanimously voted to accept the report of the School Planning Committee as read, and the Committee to be continued in office.

## REPORT OF THE SCHOOL COMMITTEE

To the Citizens of Plainville:

During the past year the following teachers left our staff: Miss Rose Marie Downie, Foreign Languages and English; Mr. C. Bateman Ewart, Jr., English; Mr. William J. Galarneaux, Commercial in the High School; Miss Elizabeth J. Snow, the first grade teacher, and Miss Barbara Allen, the third grade teacher. We have been most fortunate in securing capable teachers to fill these vacancies. The school committee feels that we are again obtaining teachers of high quality and are gaining our pre-war reputation of a good teaching staff.

During the summer the Town Hall building was repainted. We feel this is an important step in the upkeep and appearance of this building.

Last year, at the request of the finance committee, we postponed the resurfacing of the Town Hall school yard. There is a definite need for carrying this project through this year. This will improve the condition of the yard and appearance of the building.

In anticipation of our new school building we do not advocate any major repairs to our present buildings. Our school planning committee is well aware of our situation, and we trust their recommendations to the Town will be given careful consideration.

We feel our schools have had a very successful year and we want to express to the Superintendent and the teaching staff our appreciation of their co-operation.

The following financial statement and the Superintendent's report are worthy of your careful consideration.

Respectfully submitted.

CLINTON E. BARTON, Chairman  
JOHN M. BOWMAR, Secretary  
HARVEY C. MORSE

**REPORT OF THE SUPERINTENDENT OF SCHOOLS**

---

To the Plainville School Committee:

I have the honor of submitting to you my twenty-sixth annual report and the forty-third in the series of reports.

**New Elementary School**

The proposal for a new Elementary School was the most important and far reaching event during the year 1949. For the Plainville School Building and Planning Committee, I prepared the presentation of the statistical data to show the need and the educational objectives of such a school. In some detail, the means by which these objectives could be carried out in the new building were presented. Therefore, this annual report will not repeat this data as the report of the special committee has been made available to all.

**School Staff**

Recently a study was made by the University of Illinois called "An Investigation of Morale". Schools were selected because of their standing for this purpose by the Dean of the College of Education at that University. Their report on the Plainville teachers stated "Our findings indicate that the teachers in your school system have a high On-the-Job Morale". It was a pleasing compliment to be one of the schools selected for this study and also to find that our teachers rated "high" out of a study of 1129 teachers. The Massachusetts Teachers Federation has made a study of the professional preparation of the teachers of our state. The percent of the Elementary School staff with professional degrees is 17 per cent in Plainville while the state average is 36 per cent. The percent of the High School staff with high professional degrees in Plainville is 25 per cent with the state average 22 per cent. For the entire school staff with a professional degree, the state average is 60 per cent and Plainville is 62 per cent. Thus in professional training, Plainville schools rate above the average for the entire staff. When we consider both the teaching load and the physical facilities under which our teachers have worked in recent years, it is doubly remarkable that our staff rated high in the "On-the-Job Morale".

### Social Studies

The revision of the School Curriculum is a continual process. During the past year, the Social Studies Field has been very thoroughly studied and examined by a committee of teachers from all schools, both elementary and High School, in both Norton and Plainville. An extensive report giving recommendations for textbooks and teaching plans for Geography, History and Civics in Grades 4-8 was prepared. The correlation of this report with the work in the Senior High School is to be studied further by this committee under the leadership of Mr. Roland Wolcott. The importance of the Social Studies Program is evident. Most of the demands on the school in training young people to fit better into our society are met in the activities of this program. The work of the following committee is gratefully acknowledged with appreciation:

Robert Nye, Chairman	Virginia Brinton
Margret Mahoney	Grenith Rood
Jean Burch	Roland Wolcott, co-chairman
Beatrice Wood	Walter Power
Esther Grant	

### Junior Red Cross Program

The Plainville Schools have annually participated in the drive for Junior Red Cross funds. There has been usually 100 per cent participation by the pupils in both the Elementary and High School. This year in co-operation with the staff of the North Attleboro headquarters, a plan has been inaugurated to carry out more active participation in the service side of the Red Cross program. Miss Beatrice Wood has taken the leadership of this program in the Elementary School and Miss Grenith Rood in the Junior-Senior High School. Mrs. Claudy, the school nurse, and Miss Spier, the Art Supervisor, are co-operating in many of these projects. The goal is in the motto of the American Junior Red Cross "Service for Others, Including Service to One's Own School, to the Local Community, to the Nation and to Children Abroad." I believe that this program has both educational and civic objectives deserving the support of the school staff and parents

### Introduction to Special Reports

The reports of the Principals, Supervisors and Health offi-

cials follow. I wish to commend very highly the earnest efforts of the High School Principal who is starting his second year of service in that position. His report is extensive and quoted in full because of the importance of the topics reported. I wish to add this statement in regard to Driver Education—that this plan is about to start in full operation, both class instruction and behind-the-wheel driving. A personal letter was received from our Registrar of Motor Vehicles commending the Plainville Schools for starting such a comprehensive program in a school of this size. The credit for this plan, while all have given it encouragement, certainly belongs to the interest and initiative of Mr. Wolcott.

Miss Wood gives a very careful report of the regular activities of her school which she carries on most faithfully and capably. She has given frequently, by special arrangements which I have made, a full day to the supervision of the Reading Program in the Primary grades. With the graduate study which she has made in the field of Reading and her own experience, she is well qualified to see that the Reading program is successfully carried out. This is the first report of Mr. Gillespie who has charge of the Junior High School music. A good start has been made, upon which we hope to enlarge this year. All pupils and teachers are very happy to have Mrs. Washburn guiding the Primary Music program. The exhibits which Miss Spier has had at various times during the past year have shown commendable work in the field of Art. I regret that the illness of Mrs. Claudy, the school nurse, at the time of the compilation of this report prevents a formal report. Her sincere devotion to the Health Program and untiring efforts are known by all in close contact with the school.

### **PLAINVILLE JUNIOR-SENIOR HIGH SCHOOL**

**Mr. Roland L. Wolcott, Principal**

In submitting this annual report, I will discuss some of the changes which have taken place during the past year. I do feel, however, that we must look toward the years ahead. We have many unsolved problems and, with the continued public interest in Plainville's schools, the year 1950-1951 should show still further progress.

During the past year, four new teachers joined the faculty, Mrs. Angela M. Romay, Foreign Languages and English; Miss Thelma E. Edmunds, Commercial; Mrs. June Millett, Science and Mathematics, and Mr. Charles MacDonald, English, Boys' Physical Education and Athletic Coach. It is felt that the faculty is well equipped to provide a high level of instruction for the students. In many instances, the teacher load is too great and thus the individual teachers are not always available to provide for the individual needs of each student.

The graduating class of 1949 achieved many scholastic awards. Four members of the class received scholarships on the basis of their scholastic ability. From a total of nineteen graduates, six are currently enrolled in institutions of higher learning in Massachusetts. The remaining members of the Class of 1949 are employed in nearby communities.

The schedule of classes was changed in the fall to enable each class to have the desired number of meetings and to eliminate conflicts at the junior and senior years. The general student-faculty reaction to this change has been most favorable. Several changes were made in the curriculum in an attempt to provide better for the needs of our young people. Review Mathematics was added replacing Aeronautics because it was felt that this material would be of practical use to seniors who do not plan to continue their formal educational training after high school. Civics was increased from three meetings a week to five, and General Science from three meetings to four per week. Art instruction in the Junior High School was increased to two meetings each week. The importance of art in our curriculum is appreciated by those people who witnessed the art exhibit and heard the explanation given by the supervisor, Miss Louise Spier, at the Open House Night. Due to the small number enrolled in the High School Crafts class, several members from grade eight were allowed to enroll. The interest and application in this work is easily measured by the craft work they have completed. It seems very desirable to offer this work to a far greater number of students but under the present conditions this has not been possible to schedule.

In an effort to improve the over-all work of Junior-High students, a program of studies showing the daily schedule of classes and study halls was prepared for students and parents.

The subject to be studied and the time for its preparation were listed. It is believed that this has helped to overcome much of the problem of home work preparation faced by most parents and has facilitated the supervision of the work by teachers in the study halls. To date, the number of failures has been very small and it appears reasonable to expect some of this has been due to the adherence to this schedule.

A course in Driver Education has been approved by the Superintendent and the School Committee and will be offered to as many students of legal age as possible by the end of the present school year. In many communities, this course is also offered to adults in the community as part of the adult education program. It is a service which might well be provided at some future time here in Plainville.

The music program has been increased in scope with the hope that music will have a greater part in our curriculum and thus a wider influence among the student body. Under the direction of Mr. Gillespie, the Glee Club has appeared before the public frequently. Members of the Glee Club were given the opportunity to attend a Gilbert and Sullivan opera in Boston. Considerable progress has been made towards enlarging the music program even though instruction is provided on only one day each week. We should attempt to provide more school time for music education in order to make it possible for the youth of Plainville to develop an appreciation for music. Music appreciation is an art one can enjoy throughout his life.

We are fortunate in Plainville that sufficient funds are made available for the purchase of new text books and supplies in order that we may keep abreast of the many changes in the various scientific, social, economic, and political fields, as well as in the improved teaching methods of known value. New texts have been added in the following departments: Latin, French, Economic Geography, and Junior High Mathematics, and Social Studies. The Chemistry Department was supplied with much needed materials and supplies. The installation of a new gas line into the building has provided sufficient gas pressure to operate the required number of Bunsen burners by this year's large Chemistry class.

The movie projector purchased in December, 1948, has

been widely used for class room instruction, assemblies, and entertainment. Each week members of the Junior High Social Studies classes present a "World News Broadcast" to their class by means of the microphone and loud speaker.

The baseball and girls' and boys' basketball teams enjoyed very successful seasons. The new Mayflower Basketball League which we joined proved successful and popular. Our relationship with other team members has been most pleasant. This fall, under the impetus and direction of Mr. MacDonald, the high school boys were introduced to six-man touch football. It is highly possible that this sport may well provide the fall sport for the boys. The girls have been introduced to field hockey by their instructor, Miss Rood. Basketball practice for Junior High boys has been held whenever the gym has been available and several games have or will be scheduled with nearby schools. Our Physical Education program is greatly handicapped by the heavy classroom schedule demanded of the two instructors. The most desirable program of health and physical education requires full time instructors and in the small school this is not often found. Here again is an item for the future.

The school lunch room was completely redecorated and furnished with curtains. A program has been started to replace the old dishes with new plastic dishes of uniform size. It is hoped that by the end of this school year this replacement program can be completed. This past year an average of 175 students and teachers has been served daily in the lunchroom under the direction of Mrs. Maude Cheever. This low cost service is made possible with the aid of Federal Subsidy. On December 21, a full course Turkey dinner was prepared and served to 303 students, teachers, and guests by the lunchroom staff assisted by several members of the Parent-Teacher Association.

The Open House Night held during National Education Week in co-operation with the Parent-Teacher Association proved of considerable interest to the parents and friends who visited the schools that evening. The large attendance was very rewarding to the members of the faculty and students who made this type of program possible. It is believed that the greater the interest in our schools from parents and citizens, the better schools we will have in Plainville.

During the year a student committee has met at various intervals to discuss and render decisions on various school problems. It is hoped that the student interest in this method of student government will soon be solidified into a Student Council whose purpose would be to: 1. Provide training in leadership; 2. Promote a closer student-faculty relationship; 3. Practice the democratic processes by initiating, discussing and taking action upon various school problems; 4. and act as the source of energy, as well as the controlling unit, for school morale.

The annual magazine campaign again proved a very profitable method of providing funds for athletics, assembly programs, and other special extra-curricular activities.

To a very friendly and co-operative faculty, to Mr. Nourse, and to members of the School Committee, I wish to extend my sincere thanks for the opportunity to have served with you on this important task of attempting to provide the best possible education for Plainville's youth.

### PRIMARY SCHOOL

**Beatrice H. Wood, Principal**

School opened with an increased enrollment, distributed as follows:

Grade I	38
Grade II	39
Grade III	26
Grade IV	25
Grade V	25
<hr/>	
Total	153

Our enrollment at the present time is 163. As was the case last year, the first grade is again especially large, and indications are that we can expect overcrowded beginning classes for some time.

Mrs. Drusilla Lyford was added to the staff of the Primary School upon the resignation of Miss Barbara Allen. Miss Kathleen Joyce became the teacher of Grade 1 in September following the resignation of Miss Elizabeth Snow.

The financial activities of the Primary School continued as usual. The pupils contributed to the annual Junior Red Cross drive, achieving the 100 per cent membership we have had for several years. Present plans call for Grades 4 and 5 to make favors for the trays of patients in the various hospitals—this work to be carried out in the art classes under the direction of Miss Spier.

Our entire quota of pencils to aid the Tuberculosis fund was sold, and another box was received to be distributed later on.

In the early spring the sale of seeds was successfully completed. The sale of these seeds is limited to the Primary School, and as usual quite a sum was added to our treasury.

We have had several assemblies, usually in the form of motion pictures which are used as teaching aids. Also, Mr. Hawkins of the Registry of Motor Vehicles paid us his annual visit. In addition to his talk he gave the children copies of safety rules, and Safety Pledge cards were given to those children who own bicycles.

This year a portable electric record player was put into use, and several albums of records were purchased for use in all classrooms.

Our programs for the public consisted of a Play Day which was directed by the third grade teacher, Miss Allen. This program was made up of singing and action games, folk dances, drills, and marching, and was a culmination of the activities conducted in each classroom during the year.

On Memorial Day, our exercises were again combined with those of the Junior and Senior High Schools. This unified program was well attended, and were we pleased to have members of the local Legion post and auxiliary as guests.

Our National Education Week activities were a little different than usual this year. We held Open House during the week, but on Wednesday evening the parents visited the classrooms and listened to brief talks and explanations by the teachers on various phases of the work that is carried on.

The Christmas operetta was omitted this year, due to the fact that the basketball equipment partly obscured the view of the stage. In its place presented a Thanksgiving program which featured an operetta "Thirty Minutes With the Pilgrims." Once again, Mrs. Washburn, our music supervisor, gave generously of her time, in order to make the program a success.

The course in Nature Lore, supervised by the Massachusetts Audubon Society, was carried on in Grade 5. This course consists of nature talks, informal discussions, visual aids, and field trips.

This fall the revised editions of our Modern School Arithmetic books were put into use in Grades 3, 4 and 5. This edition has a simplified vocabulary, and the material is presented in an interesting way. More important, the problems are within the child's interest and knowledge.

During the year I have continued the practice of visiting the classrooms to observe teaching procedures and results. Quite a varied testing program has also been carried on throughout the school. This included achievement, intelligence, and reading readiness tests in the different grades.

Again, Mrs. Cheever is to be commended for her work in the lunchroom—not only for the nutritious lunches she serves, but also for her good nature and patience with the children.

I should like to express my gratitude to the Primary School teachers for their willingness and co-operation. They join me in thanking Mr. Nourse and the members of the School Committee for their interest and efforts in behalf of both pupils and teachers.

## ART

Louise B. Spier, Supervisor

I herewith submit my fifth annual report. I cannot refrain from repeating the Art Education Creed which was presented by the Committee on Policy and Research to the National Art Education Association this year and which so adequately expresses my beliefs:-

"The National Art Education Association believes the Art experiences are essential to the fullest development of all people at all levels of growth because they promote self-realization of the whole individual by integrating his imaginative, creative, intellectual, emotional and manual capacities and social maturity and responsibility through cultivating a deepened understanding of the problems, ideals, and goals of other individuals and social groups.

"Art is especially well suited to such growth because it: Encourages freedom of expression, emphasizes emotional and spiritual values, integrates all human capacities, and universalizes human expression.

"Art Instruction should encourage: Exploration and experimentation in many media. Sharpened perception of esthetic qualities, increased art knowledge and skills, and the creative experience in significant activities, and the realization that art has its roots in everyday experience.

"Art classes should be taught with full recognition that: All individuals are capable of expression in art. Individuals vary markedly in motivations and capacities, and art is less a body of subject matter than a developmental activity.

"Because art experiences are close to the core of individual and social development and because they pervade all phases of living, the National Art Education Association believes that ALL teachers should have basic training in art."

The Plainville Schools participated in the International School Art Program which is sponsored by the National Art Education Association and the American Junior Red Cross.

Fifteen paintings were sent from our High School Art classes and the same number from the Junior High School. These paintings were exhibited in the Town Hall for the children to see and enjoy and also for the P. T. A. at the April meeting. Word has been received through the Junior Red Cross that some of these paintings were sent to the National Exhibit, Belgium, Canada, France, Poland, Sweden and Yugoslavia.

The results of the annual Animal Poster contest which our schools have entered for many years were as follows:-

High School—

1st Prize—Jacqueline Desjardins, Grade 10

2nd Prize—George Bucklin, Grade 12

Honorable Mention—Dorothea Perrerault, Grade 12

Junior High School—

1st Prize—Paul Moody, Grade 7

Sally Lovely, Grade 6

2nd Prize—Karolyn Youngdahl, Grade 7

Anne Kilham, Grade 6

Primary Building—

1st Prize—Barbara Kettell, Grade 5

Susan White, Grade 4

2nd Prize—Betty McQuade, Grade 5

Honorable Mention—Audrey Peck, Grade 5

Carol Rogers, Grade 4.

In April, the pupils in our schools and the P. T. A. had the opportunity to see the work of other children in the exhibit of "Elementary Art Work in the Philadelphia Schools," one of several traveling exhibits from the Eastern Arts Association. Last October, we had another exhibit "Elements of Design." This was suited to older children and was shown to the fourth grade and up.

Patricia Davis, graduate of the Class of 1949, received an honorable mention for her Easter Seal Design which was

submitted to the Society for the Crippled and Handicapped in their Easter Seal Design Contest.

George Bucklin, who also graduated last June, has entered the Massachusetts School of Art.

The regular art outline has been followed as usual. Art work and murals from the grades and high school were shown at Open House on June 2. On November 9th, samples of art work done since the beginning of school in September from the first grade up through high school were exhibited at the Open House evening for American Education Week in connection with a talk on "Why Art for Your Children?"

My sincere thanks to Mr. Nourse, the principals and teachers for their continued co-operation and friendliness.

## MUSIC

### **Hariret F. Washburn, Supervisor Primary School**

I herewith submit the annual report of the music work in the Plainville Primary School.

The regular work of rote singing, rhythm work, rhythm orchestra, folk dancing and record listening has been carried on as usual this past year. The music has helped to make the Memorial Day and Thanksgiving programs much more interesting. A year ago we gave a Christmas operetta but found it difficult to use the Town Hall because of conflicts with basketball practice. This year we presented a Thanksgiving operetta "Thirty Minutes With the Pilgrims" which gave a fairly true picture of that historical period. The costuming and staging were simple and the performance was well acted and well sung, and although the audience was small, it was an appreciative one. Mrs. Lyford's accompaniments of some of the songs was a great help.

"The Song Book With a Plan" which we are using in the upper three grades are proving very valuable; the two part music book has helped tremendously in developing the children's ability in that direction.

The feeling of satisfaction gained by teachers, pupils and me is most gratifying and makes the bi-monthly visit something to be anticipated with pleasure by all concerned. A cultural subject needs that pleasurable anticipation.

Thanks to the co-operation of the teachers and the attention and interest of the children, the music work in the Primary School is making excellent progress.

## MUSIC

### **Nahum P. Gillespie, Supervisor Junior-Senior High School**

If someone should ask me what my objective as Supervisor of Music in the Junior and Senior High Schools of Plainville is, my answer would be to have all the students love good standard music, to have a desire to hear the same, and better still to wish to produce some music, not necessarily professional, and thereby become an active party to good music. Youths who are interested in good music are on fairly safe ground. In my many years of teaching both in school work, and in my private studio work I know this to be so. I like the slogan I read in a musical magazine "Blow a trumpet and you will not blow a safe." In other words get youth interested in good music.

School music should be of such character that the student will have become fond of it, so that after he graduates he will carry it with him into the home, and his future years of family life. I still am strong for having a piano in every home, because it sort of invites one to take an active part in producing music for their own enjoyment.

This past year the most outstanding events in the music department were first, the trip to Boston by the High School Glee Club to witness a performance of the Princess Ida, a Gilbert-Sullivan production presented by students of the College of Music of Boston University. There were over sixty-five High Schools represented in the audience. The second event was the Christmas program presented at the December meeting of the P. T. A. The title was "Christmas in Song and

Story." The characters, some fifteen in number, were taken mostly from Mrs. Brinton's sixth grade. The High School Glee Club opened and closed the program with a candlelighted processional and recessional in choir robes. During the program the Glee Club sang the various carols. On the stage these carols were seen in tableau. Mr. Wolcott, Mrs. Brinton and Mrs. Millett gave me splendid co-operation.

Mr. Wolcott is most co-operative with me in endeavoring to make the music program of the school have a definite place, and time set aside for same. I hope in this way that we may build up the musical department of your Junior and Senior High Schools, for there is much to be done.

### SCHOOL PHYSICIAN

**Dr. John T. Cotter**

The annual examination of the children in the Plainville schools is nearly completed. It is noted that several of the tonsil cases in which operation was recommended had been taken care of with marked improvement. There seems to be the usual number of defective teeth but many of the children report that they have recently started to get dental care.

The general health of the students is good.

In the spring several suspicious cases of ringworm of the scalp were screened and reported negative.

In the spring a diphtheria prevention clinic was held and was poorly attended.

The pre-school clinic was well attended.

It is planned to hold the usual diphtheria prevention and pre-school clinics in the spring of 1950.

I wish to thank Mrs. Claudy, the school nurse, for her invaluable assistance to me in helping me with the examinations.

**Closing**

The past year has been one of many problems. It has also seen the start of plans for meeting these problems. I wish to express appreciation for the untiring efforts and earnest zeal of the School Committee.

Respectfully submitted,

LAURENCE G. NOURSE,  
Superintendent.

**REPORT OF WATER COMMISSIONERS**

To the Honorable Board of Selectmen:

Gentlemen:

The year 1949 was a busy year for your Water Department. Several extensions were voted at the Town Meeting. The School Street extension was completed, also the Vernon Young Drive and Hillcrest Drive extensions were completed.

Pleasant and Cottage Street are about half finished. Fletcher Street was not started, but most material for all work has been purchased.

Eighteen (18) new connections were made, and three (3) old services renewed. A hydrant on South Street was broken and repaired.

The black topping on the State road caused the Water Department to install extensions on all valve boxes.

Amount appropriated at Annual Town Meeting	\$4,800.00

## REPORT OF TRUSTEES OF PUBLIC LIBRARY

To the Honorable Board of Selectmen:

Gentlemen:

The Board of Trustees of the Public Library is the same as last year, Theodore Wickman, President, Alice Pease, Secretary, and Arthur Washburn as the third member of the Board.

The library has been open to the public on all the required days.

Co-operation with the school in supplying books for the certified State Reading. The state reading has been continued each year, for it is a great help to the teachers and the pupils.

The circulation is a little lower this year, but seemed to be increasing during the last few months.

## REPORT OF POLICE DEPARTMENT

To the Honorable Board of Selectmen:

Gentlemen:

We submit our annual report of the Police Department for the year ending December 31, 1949.

During the year 2 arrests were made.

Complaints and investigations, 65.

Papers served for out-of-town departments, 17. Summons, 13. Capias, 1, Warrants, 2, Trustee writ, 1.

Motor Vehicle accidents for the year, 14. Persons injured, 8.

One death in motor vehicle accidents in town, it was investigated by the State Police of Wrentham.

During the illness of Chief Chester A. Meyer, Selectmen Ralph Crowell acted as Chief of Police.

We feel, however, that this was a successful year as we have all but two cases cleared up.

In submitting this report I want to thank your Board and members of this Department for the cooperation shown during the year 1949.

## REPORT OF FIRE ENGINEERS

To the Honorable Board of Selectmen—

Gentlemen:

In presenting our report for the year 1949, we would like to outline some of the progress we have made in more protective measures in our department.

We have purchased two "Scott Air Pack" masks (which are required by law), at a cost of \$400.00. These we have had occasion to use with satisfactory results.

One new box has been added to our fire alarm system, known as Box 34, corner of Broad and South Streets. A plan has been adopted by your Board of adding at least one new box every year at an approximate cost of \$400.00.

This year the Whiting and Davis Company agreed to purchase the material for the erection of a new alarm box at their factory if the Plainville Fire Department would extend their line and make the connection. This installation is nearly completed.

During the year it was found necessary to replace the twenty-one year old portable forest fire fighting pump with a new modern easy-to-operate unit which had not been planned in our budget.

We were fortunate in being able to survive this financial setback and have a substantial balance to turn back to the taxpayers.

Again we wish to thank your Board and every member of the department for their wonderful help and co-operation.

Appropriation	\$3,875.00

## REPORT OF THE BOARD OF HEALTH

The Board of Health activities during the year were confined to investigation of the usual number of complaints, cess-pool and other.

Regular inspection of milk, restaurant equipment, etc., was made under the direction of Steele's Dairy and Laboratory Service. No very flagrant departures from the standards considered necessary to the community's health were noted. On and after November 1, 1949, it was required that all milk delivered in the Town be pasteurized.

There were several cases of Polio in Plainville during the year, and the Board took the precaution of closing all ponds and streams to public bathing while the disease was at its height.

Disease recordings on file in the Town Office for the year 1949 were as follows:

German Measles	4	Measles	42
Whooping Cough	1	Mumps	3
Lobar Pneumonia	1	Dog Bite	12
Scarlet Fever	1	Polio	3

**REPORT OF PARK AND PLAYGROUND**

To Honorable Board of Selectmen:

We hereby submit our annual report—

The Park and Playground was not used as much as in previous years due to the Polio scare in the town. While we did not feel that any child got the disease from the pool or would get it closed the pool on orders from the Board of Health. These precautions are necessary and wise at all times.

The ball field has been used for practice and games by the High School but not enough to justify spending a lot of money on it. The backstop has been covered with heavy wire and also has been painted.

The bath house and shelter have been painted as well as the settees.

In order to keep the Park clean and the grass mowed it was necessary to hire a man who did the painting and later in the fall cut down the brush along the east bank of the river on the westerly side of the Park.

The women attendant is for the sole purpose of caring for the children during the hours from 1 to 5 P.M.

Vandalism continues on the grounds after the Park closes at night. Bathhouse doors have been damaged, one of the cement balls on the Band Stand has been broken, apparatus thrown into the pool, it is almost impossible to stop this destruction.

We have contacted Mr. Frank Westcott who constructed the pool and he has been of great help in suggesting the right Company to repair it. We feel that something should be done immediately along this line or else a new pool constructed. Labor:

**REPORT BY COMMITTEE TO LOOK INTO BUILDING  
CODES AND ZONING LAWS**

To the Townspeople of Plainville, Mass.:

After looking into plans for building codes and zoning laws, the following set of by-laws were found which apparently are adequate for the needs of the Town.

The Committee appointed to look into the matter would like to recommend that it be granted permission to continue its activities until the Town has voted on the adoption of these by-laws.

The Committee further recommends that the following by-laws, if acceptable to the townspeople, be adopted at a future Town Meeting.

**ZONING BY-LAWS**

These by-laws are adopted for the health, safety, convenience and welfare of the inhabitants of the Town of Plainville, by regulating the use and construction of buildings, structures and premises within the town of Plainville.

**Part I**

**Area Regulation and Lot Sizes**

**1—Lot Lines and Areas:**

(A): No main residential building shall be nearer than twenty feet from the front lot line, and ten feet from the side and rear lot lines. Where there is more than one building located on any lot, the main building shall be the one on that lot which is principally used by the owner thereof.

(B): Commercial buildings may however face on front lot line.

(C): In the case of front lot lines where there are buildings or structures on either side within one hundred feet of the proposed buildings or structures which are nearer to the street than twenty feet, then and in that case a building or structure

may be constructed on a line with existing buildings or structures.

**2—Lot Sizes:**

Each main building or structure shall be erected on a lot containing no less than seventy-five hundred (7500) square feet of land and being no less than seventy-five (75) feet wide.

**Part II**

**Non-Conforming Uses**

**1—Continuation of Non-Conforming Uses:**

Any lawful building or use of a building or premises or part thereof at the time this By-law or any amendment thereto is adopted may be continued although such building or use does not conform to the provisions thereto. No such building shall be added to, enlarged, or reconstructed to an extent greater than fifty per cent (50%) of its area at the time of the adoption of this By-law or such amendment.

**2—Limitation on Restoration:**

A building which does not conform with these By-laws which has been damaged by not more than seventy-five per cent (75%) after the adoption of these By-laws by fire or other cause may be repaired or rebuilt provided that it shall not be extended beyond its former walls in the repair or rebuilding thereof.

**3—Lots owned at time of Adoption of This By-law.**

On any lot which is separately owned at the time that this By-law is adopted by the Town, main buildings may be erected regardless of the width of the lot or the number of square feet contained in the lot provided that any such buildings so erected shall not be nearer than twenty feet from the front lot line and ten feet from the side and rear lot line.

**Part III**

**Administration and Enforcement**

**1—Machinery for Administration and Enforcement:**

There shall be a Board of Appeals of five members ap-

pointed by the Selectmen as provided in Section 30, Chapter 40 of the General Laws of Massachusetts, as amended. The members shall be appointed for a term of five years in such a way that the term of one member shall expire each year, and one appointment shall, therefore, be made by the Selectmen to fill the vacancy each year. The Selectmen shall also appoint one Associate Member for a term of five years, and this Associate shall serve upon the Board of Appeals in case of the death or disability of any regular member before his term shall have expired. This Board of Appeals shall act upon all matters within its jurisdiction under this By-Law in the manner prescribed by Chapter 40 of the General Laws of Massachusetts. This Board of Appeals shall, at all times, give consideration to the promotion of the public health, safety, convenience and welfare, and this Board shall permit no building or structure or use of any premises which causes injury to any neighborhood or which is detrimental to any neighborhood, and the Board shall prescribe appropriate conditions and safeguards in each case.

## **2—Enforcement:**

The Board of Selectmen shall appoint a Building inspector whose duty it shall be to grant permits for construction work under the jurisdiction and subject to the control of the Board of Selectmen. The Building Inspector shall examine any building, structure or premises at the pleasure of the Board and shall report to the Board regarding the same. This person shall be paid for his services by the Town of Plainville in an amount or amounts to be decided by the Board from time to time.

If a permit is refused by the Building Inspector to any applicant, he may appeal to the Board of Appeals for a public hearing, and the Board of Appeals shall hold a public hearing upon such application after posting due notice of the time and place of such public hearing at least (7) seven days before the proposed date of such public hearing, and after such public hearing the Board of Appeals shall make a finding in writing either issuing or refusing the permit.

## **Part IV**

### **Amendment**

These By-Laws may be amended, altered, modified or repealed at any town meeting of the Town of Plainville as provided by law.

**BUILDING BY-LAWS AS AMENDED****Part I****1—Chimneys:**

In any building every chimney shall be constructed of brick, stone or concrete and shall commence from the ground or bottom of cellar, unless corbeled from a masonry wall. The walls shall be at least four inches (4) thick with terra cotta flue lining.

**2—Wiring:**

All electrical wiring entrances shall not be smaller than one inch (1) conduit, with three (3) wires not smaller than number six (No. 6) or an approved type of service entrance cable with three (3) wires not smaller than Number six (No. 6); in either case there must be an identified neutral wire. The service must be grounded with number six (No. 6) armored wire and fastened with an approved clamp to the street side of the water system. In the absence of an out piping system, a ground rod or pipe driven into a permanently damp earth is acceptable. All electrical wiring shall be inspected before the current is turned on by an official appointed by the Selectmen, and no wiring shall be enclosed until it has been inspected.

**3—Foundations:**

The foundation of every structure shall conform to the standard building practice for the type of structure involved, with adequate footing where soil conditions necessitate the same.

**4—Framing:**

The framing of every structure shall be done in accordance with standard building practice.

**5—Outside Wall Finish:**

No material shall be used for the permanent outside finish of the walls of buildings or structures except stone, brick, clapboards, tile, wood, shingles, composition shingles, concrete or that type of cement which is known as "Stucco."

**6—Roof Covering:**

Wherever a building is nearer than fifty feet from another building, the covering of the roof of such building must be of fire resisting material. If a building is more than fifty feet from any building, the covering of the roof of such building may be any standard roofing material.

**7—Sewage:**

The disposal of sewage shall be by cesspool or septic tank and in accordance with standard practices.

**Part II****Administration and Enforcement****1—Enforcement:**

Except as otherwise provided, this By-Law shall be administered by the Building Inspector. He shall approve no application of any kind, plans and specifications and intended use for which are not in all respects in conformity with this By-Law.

**2—Permits:**

No building or structure shall be constructed, moved or materially altered without first obtaining a permit therefore from the Building Inspector. The Building Inspector may require plans and specifications to be submitted to him before such permit shall be issued. The fee for such a permit shall be as follows:

1. For construction costing less than \$500, no fee.
2. For construction costing more than \$500 but less than \$10,000, \$2.00.
3. For construction costing more than \$10,000, \$5.00.
4. For alterations to existing building costing less than \$500, no permit required.

The permit shall be void unless operations thereunder are commenced within ninety (90) days of the date of the permit, or if the operations are discontinued for a period of more than (90) days.

**3—Penalties:**

Any person violating or permitting another to violate any of the provisions of this By-Law shall be punished by a fine not exceeding One hundred dollars (\$100) for each separate offense.

Respectfully submitted,

EDWARD A. HENRY,  
CHRISTIAN F. HENRICH,  
RALPH E. CROWELL,  
SYDNEY J. ANDREWS,

**AUDITOR'S REPORT**

To the Honorable Board of Selectmen—

Gentlemen:

This is to certify that the books of the Treasurer, Collector of Taxes and Water Department have been examined by me and found correct.

All amounts collected and paid to the Treasurer by the Tax Collector and Water Department agree with his statements, as well as all uncollected amounts.

The books of the Town Clerk, Sealer of Weights and Measures, and Milk Inspector have been examined and they also agree with the records of the Treasurer.

Respectfully submitted,

LAWRENCE H. CARPENTER

Town Auditor

**REPORT OF THE SELECTMEN**

The year 1949 was a rather quiet and uneventful one, aside from the usual problems of administration, welfare, maintenance, supervision of expenditures, etc. One Special Town Meeting was called during the year to provide an additional \$6,000.00 for unforeseen needs. This, however, was not peculiar to Plainville alone, as our neighboring towns are faced with the same problems of post-war growth.

In this connection, however, there is the matter of the inadequacy of the Town's water facilities which has given your Board increased concern. Under no consideration should the situation be allowed to get out of hand so that yearly appropriations for water extension become too large and burdensome to the taxpayers. The Board again urges, therefore, that a gradual program be adopted with certain sums being set aside each year for the purpose. Administration of these funds could be left to the discretion of the Board of Selectmen, or a Town Planning Committee, which it seems might serve a very useful purpose in a growing community.

Drainage work was completed for the year as planned. Here again it might be well to think in terms of a definite program to be carried on from year to year until all the troublesome areas on the east side of South Street have been brought under control.

All Town departments have functioned well during the year, and this Board wishes to gratefully acknowledge the co-operation extended by each.

Respectfully submitted,

**RALPH E. CROWELL**

**SYDNEY J. ANDREWS**

**ARTHUR W. WASHBURN**
